Soap in a square format: green soap, red soap, black soap and white soap, Made by Speick

Speick Natural Cosmetics presents a face and body care programme consisting of four different soaps: green soap, red soap, black soap and white soap, Made by Speick. The delicately fragrant soaps made from valuable plant oils cater to each individual skin type and are designed to make your skin look and feel healthy from the very first use. They're the perfect skincare product for radiantly healthy skin!

Deep pore cleansing for the face and body

Refined with activated charcoal from bamboo (black soap), Rügen healing chalk (white soap), red healing clay (red soap) and Moroccan lava clay (green soap), these alkaline, nourishing soaps provide a gentle yet intensive cleansing regime for your hands, body and face. The fine, creamy lather of this mildly cleansing soap even works to remove make-up.

black soap: detox for combination and problem skin

Bamboo charcoal absorbs toxins, contaminants and harmful substances from the skin. Thanks to its large surface, it binds unwanted contaminants and removes dead skin cells.

white soap: soothing relief for dry and sensitive skin

Healing chalk from the island of Rügen is known for refining the complexion and regenerating skin cells. It is also known for the effect it has in helping heal inflammation.

red soap: regeneration of damaged skin

Red healing clay is a ferrous clay with antioxidant properties that is very rich in minerals and trace elements. It is known for boosting the skin's natural regeneration process.

green soap: deep pore cleansing for oily skin

Moroccan lava is especially suited for oily skin thanks to its powerful absorbing properties. It absorbs and binds excess oil and dirt, giving the skin a healthy feeling without drying it out.

The four face and body soaps are vegan and are crafted according to Speick Natural Cosmetics' traditional soap recipe with RSPO-certified palm oil from sustainable cultivation as well as coconut and olive oil. They're perfect as a daily face and body cleanser and are suitable for all skin types. The soaps are packaged in an environmentally-friendly, printed, plastic-free, foldable FSC cardboard box.

Product details at a glance:
